OPR: 16 SOW/XPD (Capt David W. Walsh)  
Supersedes HF Index 5, 5 June 1997

Certified by: 16 SOW/XP (Lt Col Morrow)  
Pages: 3  
Distribution: F

---

This publication provides an index of 16 SOW and tenant unit plans to help wing and base agencies maintain current files. It also provides instructions to plan offices of primary responsibility (OPRs). It applies to all units assigned or attached to Hurlburt Field, tenant units, and remote locations.

**1. Index Explained.**

1.1. This index lists operations, contingency, and deployment plans originating within the 16 SOW. All theater OPLANS, CONPLANS, Supporting Plans and Standard Operating Procedures that apply to the 16 SOW are covered in the Hurlburt Field Plan Summary (S).

1.2. The wing plans listing (Attachment 1) shows plans developed at wing level to include operational, supporting, emergency action, and programming plans. It contains the following information for each:

1.2.1. Security classification.

1.2.2. Short title and brief plan description.

1.2.3. Date of basic plan.

1.2.4. Plan OPR.

1.2.5. Remarks.

**2. Index Inputs.** This index serves as a base-wide source to determine currency of plans. To ensure the accuracy of the index, plan OPRs will review and correct a copy of the index, certifying the accuracy of the information and distribution requirements. Plan OPRs will forward their updated listings to 16 SOW/XPD prior to the fifteenth day of May and November for publication on or about 1 June and 1 December, respectively.

**3. Distribution.** Additional copies of this index can be requested IAW AFI 37-161. Copies of a specific plan will be requested through the plan OPR.

**4. Plan Coordination.** New plans, revisions, and changes to existing plans will be coordinated through 16 SOW/XPD to ensure correct format and compliance with applicable directives. This will be done prior to plan circulation for functional coordination and submission for final approval.

**5. Plan Changes.** The OPR for a plan is responsible to inform all users of any changes to plan status. This will be done by giving specific instructions in letter of transmittal, by maintaining current entries in this index and by announcing new plans or changes in the Official Bulletin.

NICKY R. MORROW, Lt Col, USAF  
Chief, 16 SOW Plans and Programs
